A Happy Keighley. A Content Place

The Big Lottery Fund in England is investing £200 million in 150 urban and rural communities that have been overlooked for funding in the past. Each Big Local area is receiving £1m of Lottery funding over the next 10 years.

Keighley

The residents themselves will be in charge of spending the £1m in ways which improve their community.

BIG

This might include training & employment schemes, creating new community facilities or providing more activities for young people.

Local

Each area will also be given support, training, and networking opportunities to help them develop their plans and empower them to find solutions that work for their communities.
